

Baby Keep WA Corner Mounting Kit Installation Manual

For Corner Installation Use To Be Used With : Baby Keep Slim WA (Model BK-W62)

In order to safely install the Baby Keep WA, please make sure to read this manual and follow the instructions accordingly. This guide explains how to attach the Baby Keep Slim WA to a corner. To attach the Baby Keep FL type to a wall, please refer to the Installation Manual supplied with the Baby Keep FL type.

Safety Warnings

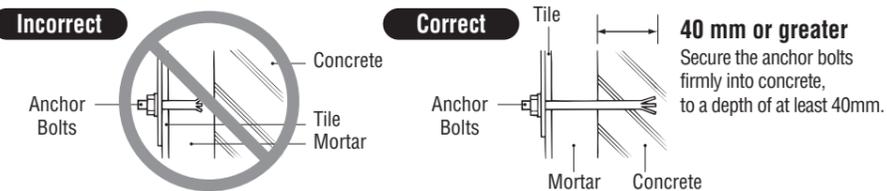

Safety precautions noted here are divided into "warnings" and "cautions" according to the urgency and seriousness of the harm and damage that may occur. Please read this instruction manual carefully before use, and observe the safety precautions.

⚠ WARNINGS	If this label is ignored or mishandled, there is risk of serious injury or death.
⚠ CAUTIONS	If this label is ignored or mishandled, there is risk of injury or property damage.

⚠ WARNING

• Make sure that installation hardware such as anchor bolts can be firmly placed into the wall. (Failure to do so may result in fall.)

• If mounting onto a concrete wall, the tip of the anchor bolts must be embedded at least 40mm into the wall. Failure to do so may result in fall.

• Apply foundational reinforcement if the wall surface is other than concrete.

*Make sure that each mounting point can withstand a strength of 1,000 N (100 kgf or more)[fix 4 mounting points]. Failure to do so may result in fall.

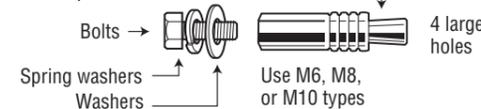

Types of Screws used for Wall-mounting

Concrete/ALC Installation

Please prepare the following before installation:

• Female screw anchor bolts

*Use ALC-specific anchors for ALC installation

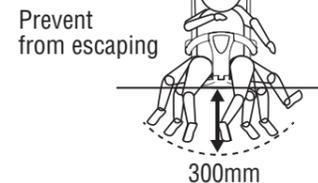

⚠ CAUTION

Do not use male screw anchor bolts.

Installation Location (Installation Range)

To assist the child promptly, do not install the unit far from the caregiver.

• Height of Installation Location

⚠ WARNING

Below the seating surface, as described in the diagram on the left, do not place handrails (including hinged one), trash can, or other objects. The child may stand up and escape and may fall.

• Install on a wall at least 600mm away from the toilet, or insure 300mm of space between the Baby Keep FL and toilet.

⚠ WARNING

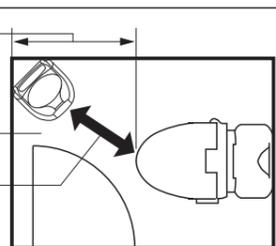

If installing the Baby Keep FL in a private restroom, install the Baby Keep FL in a location where the child can be seen by the adult using the restroom at all times.

⚠ CAUTION

The Baby Keep FL should be installed clearly from door space. Otherwise it may cause damage.

600mm as standard

Not interfere with door
Install the Baby Keep at least 300mm from the toilet

Routine Safety Inspection

Conduct the daily and annual safety inspections described below in order to safely use this product. Injury or serious accident could occur if safety inspections are not performed and/or problems with the product are not observed.

If a problem is found during the inspection, immediately stop using it, and contact your dealer or the service center below for assistance.

The daily or weekly inspection is a check using both eyes and hands. No tools are necessary.

1. Physical Inspection

1. Check for loose parts
2. Make sure the base does not wobble or shake, and that the guard is firmly in place
3. Check for scratches or broken parts

2. Checking the Guard's Function

1. Insure that the guard is firmly in place, does not wobble or shake, and moves from left to right.
2. After testing the opening and closing function of the guard several times, insure that neither the base nor the guard wobbles or shakes.

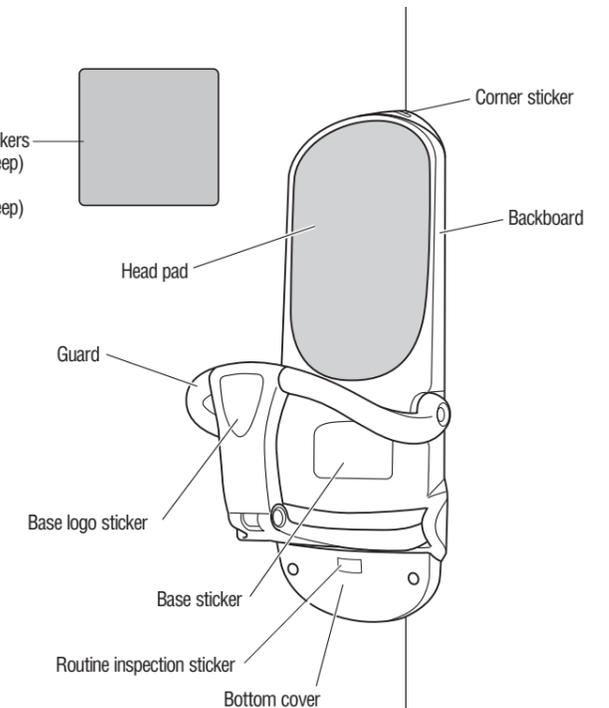

3. Sticker Check

Stickers should be firmly adhered and legible. Check for scratches, rips, missing stickers, or fadedness.

4. Head and Seat Pad Check

Check for scratches and broken parts. Make sure the head and seat pads do not wobble or shake.

Usage instructions stickers (supplied with Baby Keep)
*Guide stickers, 2 (supplied with Baby Keep)

Baby Keep WA Corner Mounting Tools

Necessary Strength of Installation Fixtures

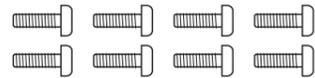

Install the Baby Keep in an area where reinforcement measures strong enough to support the following conditions have been taken. Failure to do so may result in collapse.

Wall: 1,000N (100kgf) or more per place

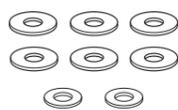

Corner Mounting Kit Hardware and Accessories

1 M6 Screws, 8

2 φ6 Flat washers, 2 big (diameter φ20), 2 small (diameter φ12)

3 φ4 Self-tapping screws, 4

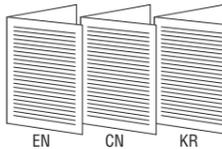

4 Corner cover, 2

5 Braille sticker, 1

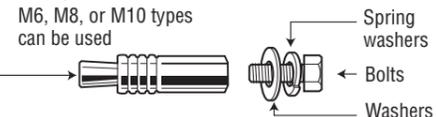

6 Installation Manual, 3

Please prepare the following before installation:

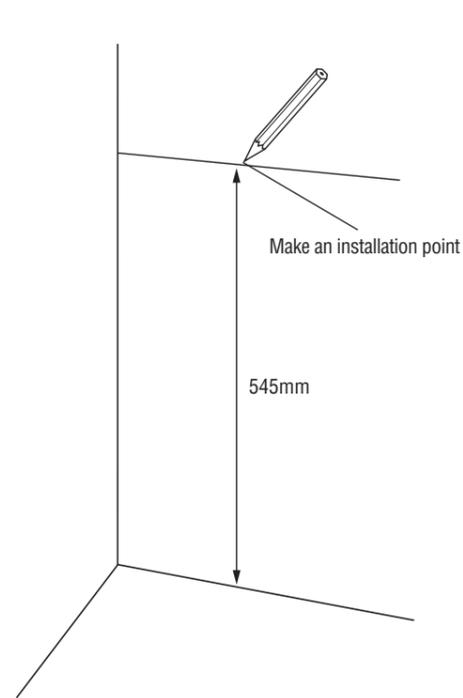

• M8 Female type anchor bolts (for use with large holes), 4

*Use ALC-specific anchors for ALC installation

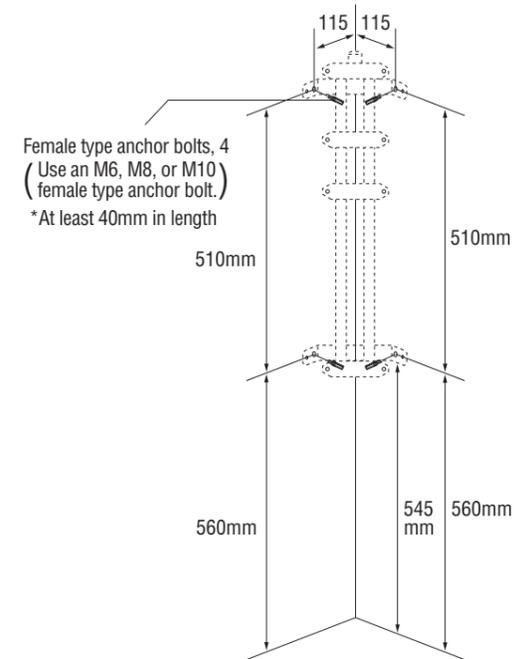

Corner Installation Instructions * Hole positions are all center pitch (center-to-center) dimensions.

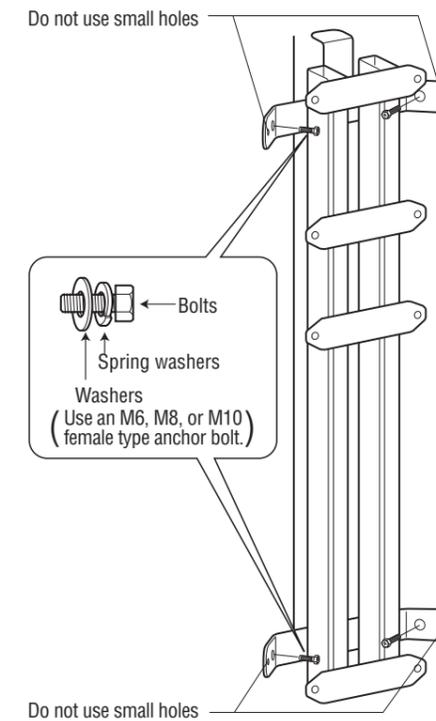

1 Place a mark on the wall 545mm above the floor.

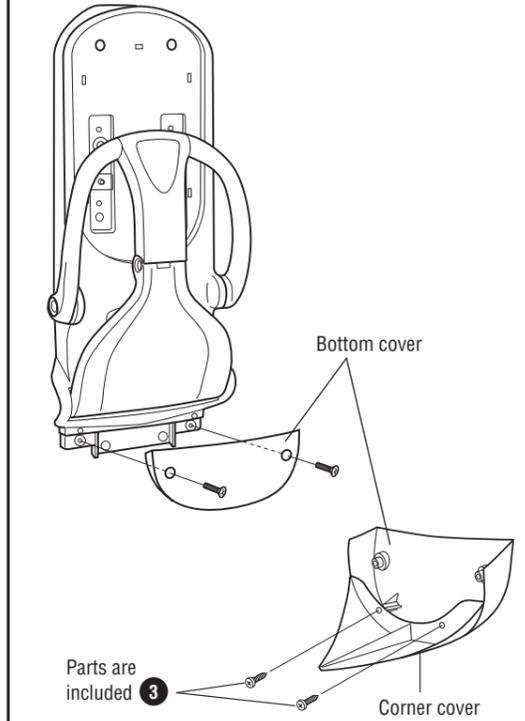

2 Align the bottom points of the corner fixtures to the areas marked on the wall. Once four points have been marked on the wall, install the anchor bolts.

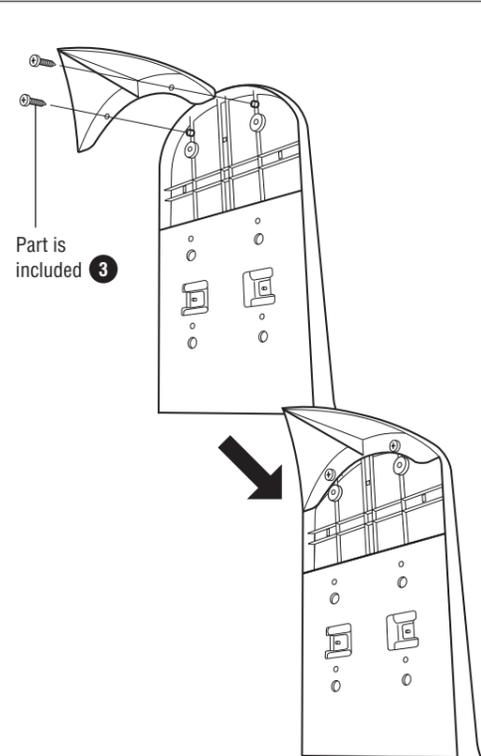

3 Fix the corner fixtures to the wall at four mounting points.

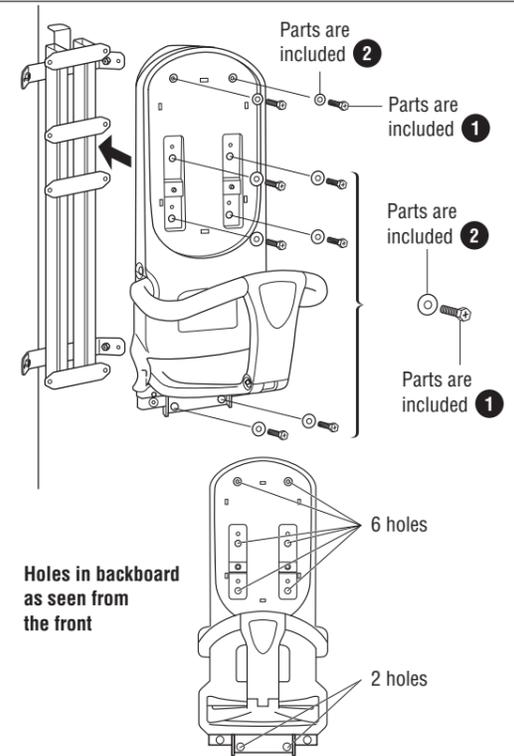

4 Remove the bottom cover of the Baby Keep WA (henceforth the base), and mount the corner cover.

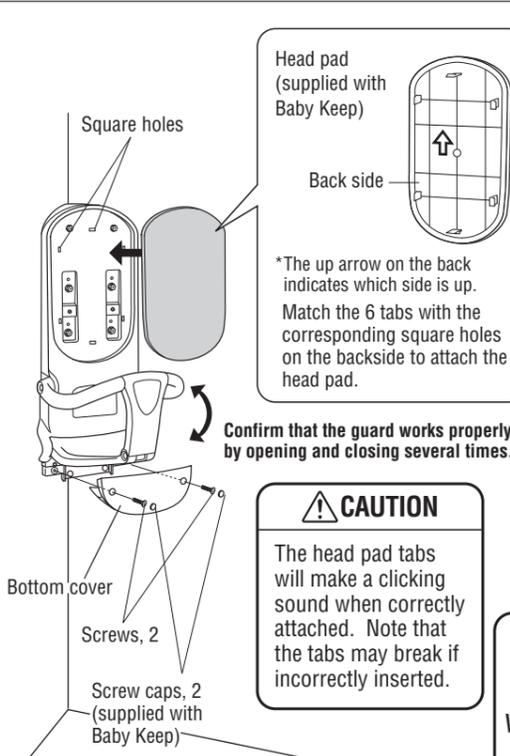

5 Attach the other corner cover to the top part of the base.

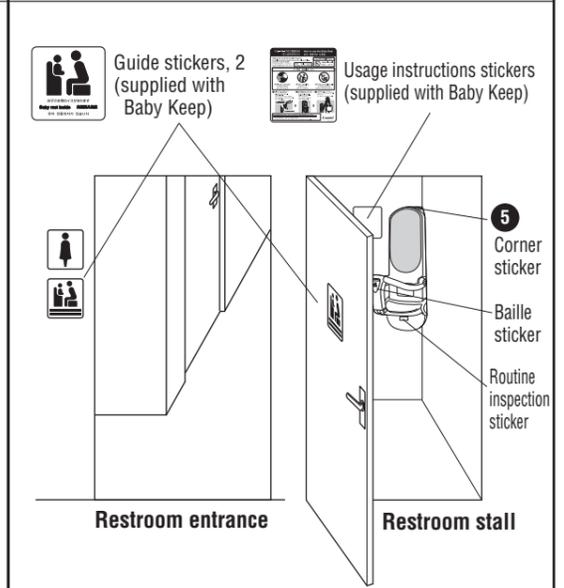

6 Attach the base to the corner fixture connected to the wall.

7 Attach the head pad and bottom cover.

8 The stickers other than Corner sticker are come with the product.

WARNING

- Stickers must be placed in highly visible areas. Dangerous actions such as indicated on the usage instructions sticker may lead to injury or serious accidents.
- Thoroughly check the Baby Keep WA once it has been installed. Refer to the Users Manual "Maintenance Inspection" section. Using the Baby Keep WA without completely assembling it can lead to injury or serious accidents.
